

# Notes

1. Grading plan based on maintaining a maximum of 2.5:1 slope with a minimum of 30 inches of soil cover over areas of asbestos.
2. Site plan based on topographic worksheet provided by Maynard & Paquette, Inc., Job # 445, "Lincoln Avenue Extention, Nashua, NH, March 1987".
3. Slight variations may exist between actual site topography and topography as shown.
4. Sewer line location is approximate as shown and has been determined based on site reconnaissance.
